

Cookie Statement

A cookie is a piece of data stored within the Web browser on your computer by the websites you visit. Cookies are widely used to improve browsing experience and help websites function more efficiently. From our website, we may place cookies on your computer. There are two types of cookies that we use:

- *Session cookies - these cookies are temporarily created when you visit our website. When you leave the website all session cookies are deleted.*
- *Persistent cookies - these cookies remain on your computer for the period of time specified in the cookie. They are activated each time you visit our website which created that particular cookie.*

The cookies we use help the website to remember your session, allow certain functionality of the website and facilitate website usage analysis. This will enable us to continually improve the website and our systems.

The cookies we use on our website do not hold any personal information about you. We do not attempt to find out the identities of people visiting our website or associate any data gathered from our website with any personally identifying information from any source. Where personally identifiable information is required to be gathered, this will be clearly communicated before you choose to provide the information, explaining the need for this information and how it will be processed.

Many Web browsers allow you to adjust your cookie preferences or delete existing cookies from your Web browser. If you set your browser to reject cookies, however, you should be aware that certain website features, promotions or services may not be available to you or may not function correctly.

Certain Web browsers may provide you the choice to set "do not track" preferences to limit the collection of personally identifiable information about your online activities over time and across third-party websites or online services. Our systems do not respond to Web browser "do not track" signals or similar mechanisms. We do not collect personally identifiable information about your online activities and third parties may not collect personally identifiable information about your online activities when you use our website.
